

MMEA MEMBERS:

As you might know, there has been a great deal of roadwork done in Osage Beach over the last few years.

Last year you might have been surprised by the new U.S. 54 Expressway that bypassed most of the lake area restaurants and shops on the east side of the Grand Glaize Bridge. The west section of this expressway is now open, so please be alert about the changes.

You will no longer be able to look for the large Tan-Tar-A sign at the intersection of Highway 54 and KK!

You may still access all the businesses you remember by using one of the four exits into the west side of Osage Beach.

Included on this map is a list of familiar landmarks that may help orient you to the new road system.
